

Annual Partner Plan

Proactive's Annual Partner Work Plans are tailored to your facility's clinical, reimbursement, and regulatory support needs.

How does it work? Partner clients receive an annual allotment of consulting service hours delivered as a combination of onsite and offsite support. Plans start as low as 8-hours per month with discounted fees billed in flat monthly installments over 12 months. Consulting focus is adjusted as priorities evolve. Additional services beyond the defined plan are billed at a discounted hourly rate.

Key Highlights of the Plan:

- Annual engagement (minimum 8 hours/month average) to address key operational areas such as Five Star rating, care plan accuracy, infection prevention, MDS accuracy, and survey readiness.
- An established onsite visit plan for weekly, monthly or quarterly onsite visits, with remote support between onsite visits and the flexibility to adjust the plan over time.
- Mock surveys and other onsite visits for comprehensive compliance reviews, training and department head support.
- Designated consultant to lead the work plan with access to other Proactive subject matter experts for client-specific monthly focus areas and specialized services.
- Discounted flat-rate monthly installments for a predictable and manageable investment that fits your budget while driving long term goal achievement and sustained outcomes.
- Discounted rates applied to additional services requested beyond the defined work plan.
